

## **PSD2 SANDBOX**

### **SODEXO'S ENGAGE'S PSD2 SANDBOX IS NOW AVAILABLE FOR INTEGRATION AND TESTING**

Third Party Providers (TPPs) are now able to integrate and test Sodexo Engage's PSD2 API Sandbox. The purpose of the API is to allow account information service providers to access and retrieve financial information from Sodexo Engage clients' accounts, based on the account holders' explicit consent.

Please use the following documentation in order to proceed with TPP onboarding and learn more on how to get access to the testing environment:
